

1. Test Suite Overview & Execution Summary

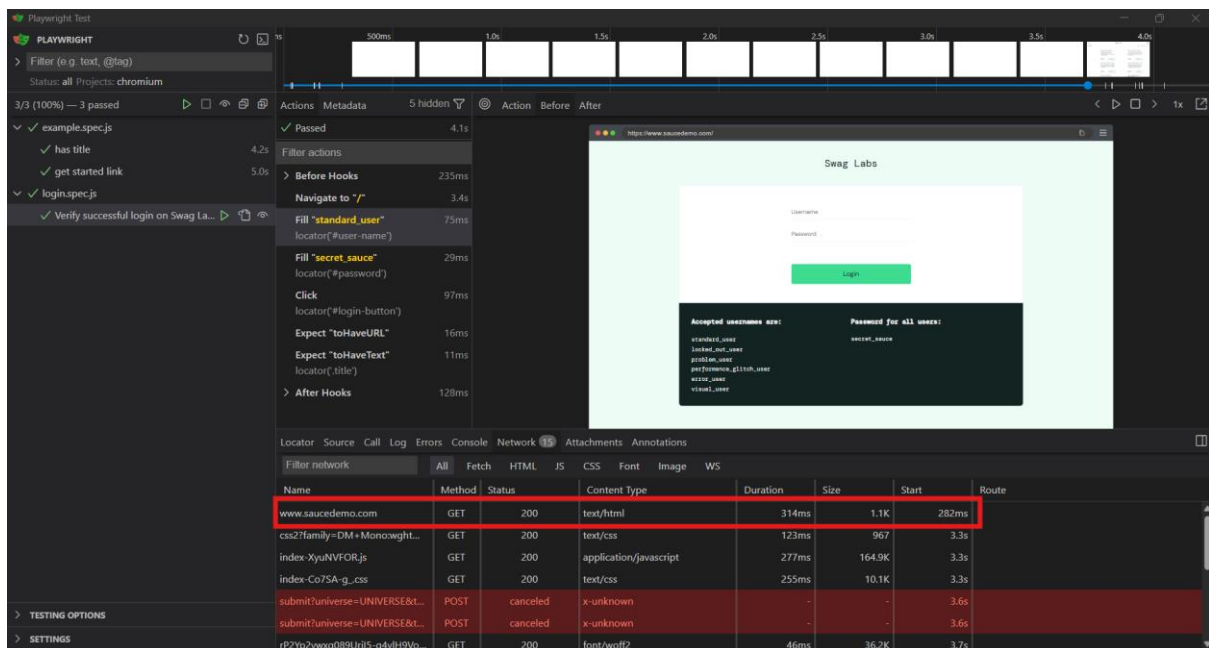

Text to include: "The Playwright test suite was executed in UI mode. All test scenarios (positive login, negative login) passed successfully without assertions failing."

(Figure 1: Successful execution of test suite in Playwright UI Runner.)

2. Network Activity & HTTP Verification

Text to include: "Network activity was monitored during page navigation. The core HTML document (www.saucedemo.com) returned a 200 OK status in 344ms, verifying fast server response times."

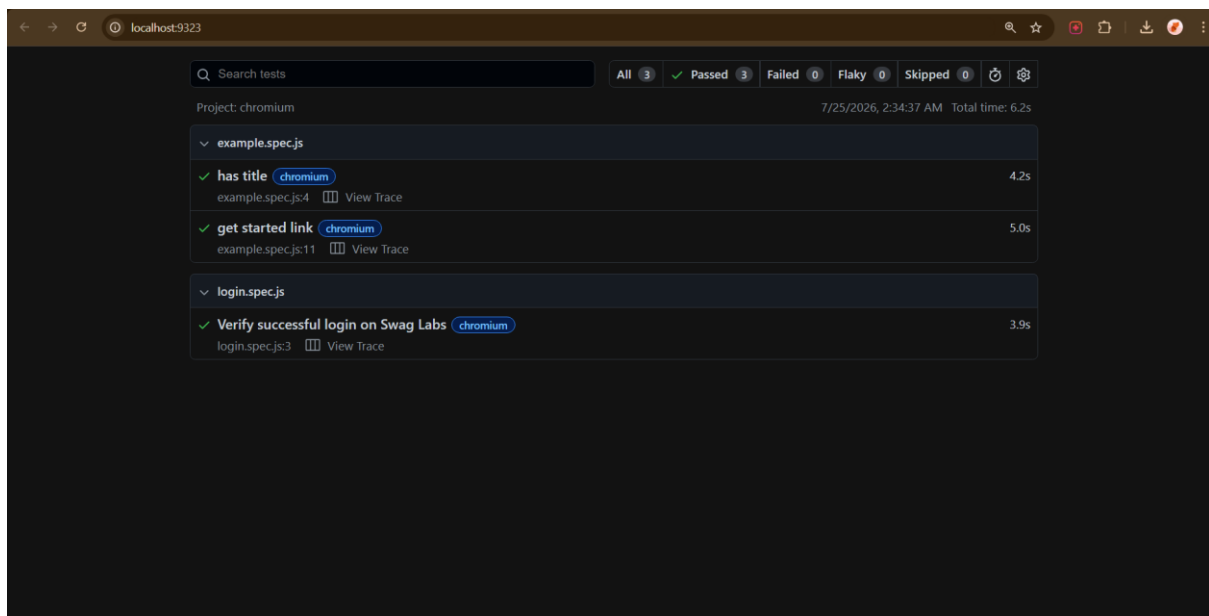

The Network tab in Playwright UI filtered by **HTML** showing the 200 status row.

(Figure 2: Verified HTTP 200 OK response for primary HTML payload.)

3. Detailed HTML Test Report

Text to include: "A full HTML test execution report was generated using npx playwright show-report to record execution timestamps, step-by-step logs, and duration metrics."

(Figure 3: Generated Playwright HTML summary report.)
